International application No. PCT/US2004/000555	International filing date (day/month/year) 10/01/2004	(Earliest) Priority Date (day/month/year) 10/01/2003
Applicant BATTELLE MEMORIAL INSTITUTE		

This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.

This International Search Report consists of a total of 4 sheets.

It is also accompanied by a copy of each prior art document cited in this report.

1. Basis of the report

- a. With regard to the **language**, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

The international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).

With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, see Box No. I.

Certain claims were found unsearchable (See Box II).

Unity of invention is lacking (see Box III).

4. With regard to the **title**,

the text is approved as submitted by the applicant.

the text has been established by this Authority to read as follows:

5. With regard to the **abstract**,

the text is approved as submitted by the applicant.

the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box No. IV. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.

6. With regards to the **drawings**,

- a. the figure of the **drawings** to be published with the abstract is Figure No. 1

as suggested by the applicant.

as selected by this Authority, because the applicant failed to suggest a figure.

as selected by this Authority, because this figure better characterizes the invention.

none of the figures is to be published with the abstract.

Box No. IV Text of the abstract (Continuation of item 5 of the first sheet)

A fluid container(6) for use with an electrohydrodynamic spray device(1) and method of using the device(1) are provided. The container(6) comprises at least one reservoir configured for holding a sprayable liquid, at least one interface (23) in fluid communication with the reservoir, at least one manifold(22) comprising at least one fluid path in fluid communication with the interface (23), and at least one nozzle(8). The nozzle(8) comprises at least one spray site in fluid communication with the fluid path. The device(1) is configured to engage the container(6). The container(6) can be configured such that when the container(6) is engaged with the device(1), the device(1) recognizes the sprayable liquid within the container(6) and automatically (or manually) adjusts certain pre-defined settings in accordance with the characteristics of the sprayable liquid.

A. CLASSIFICATION OF SUBJECT MATTER
IPC 7 B05B5/00

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC 7 B05B

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)
